All apparatus & hose has been tested in the past week and found O. K. Hose #1 is need of painting and it has been found hard to bring the breaks up to the standard as now laid down by the Registry of Motor Vehicles. On the the Pumper and Hose as the y are old style. I would suggest that chemical tanks on the different trucks be eliminated and booster tanks pumps be installed.

INVENTORY--MOTH DEPT.

April 9, 1935

Inventory April 9, 1935.

Noth Dept.
